To our Friends and Customers

We wish to thank our many friends and customers who have given us your business in the past thirty-five years. We hope that we will have the pleasure of your business again this spring. We would like to have you contact us for your needs in nursery stock, fertilizers, seeds and supplies.

We would appreciate it very much if you look this price list over now, figure out your needs, and contact us at once, so that we may book your order, making sure that we have the stock at planting time. We will be carrying very little surplus stock, so order now. If you don't find listed what you want, please inform us at an early date, and if possible we will obtain the stock desired. Take advantage of our 10% early discount.

When in doubt as to what, when and where to plant, please get in touch with us. We will only be too glad to help and advise you in any way that we can, without charge. We also furnish you with free plans, where stock is purchased from us. In all orders sent out, you will find a free booklet containing instructions for planting.

Due to the probability of our street being torn up by road construction you are invited to either phone your order in for free delivery or call for directions as to the best way to reach our Nursery.

Sincerely,

E. A. Gates
